About Me

As an IT student, I specialize in Data Structures and Algorithms (DSA), offering a strong foundation in problem-solving and efficient coding. With a focus on Android app development, I have a proven track record of creating user-friendly, feature-rich mobile applications. I also possess basic knowledge of web development. My well-rounded skillset and proactive learning approach make me a valuable asset for software development projects

Projects

Mech-Mate App

MechMate: Your on-the-go automotive companion. Instantly connect with the nearest mechanics for quick and reliable assistance, ensuring you're back on the road in no time.

Rhythmix Music player

Rhythmix: Elevate your music experience with Rhythmix, the ultimate music player app. Immerse yourself in seamless navigation, sleek design, and personalized playlists tailored to your rhythm.

IPL Data Analysis

Cricket Data Analysis Project: Expertly extracting insights from diverse cricket data using statistical techniques and machine learning. Unveiling patterns to inform data-driven decisions for cricket enthusiasts, coaches, and analysts.

Personal Portfolio Website

Explore my digital realm! My portfolio showcases a fusion of creativity and technical prowess, featuring my projects, skills, and journey. Dive in to witness a curated collection that reflects my passion for innovation and problem-solving.

Achievements

Winners - Annual Sport Meet (Football) 2022

Participated in IIT Bombay Mood Indigo Dance Competition 2022
